

# Winter 2011

## Zazie is Mais il est où le Soleil?'s muse

**The artist and the brand will take you to a Ba-rock-mantik world, always tinged with the surreal!**

The Mais il est où le Soleil? collection invites you to a diversity of very feminine looks...

A world expressed in rock silhouettes from an earlier era softened with a touch of the romantic: dotted tulle, lingerie offset with humour, light feathers.

But winter is here with heavy tweed coats and tie dye vests.

Chequered feminine masculine inspires playful detours. Strapless dresses mingle with flounces and lace feathers. Colours are dusty or downright bold.

And accessories round out the spirit of the brand, a dash of vintage effect with modern touches!
